A Gorgeous Entryway Made Just For You

You know that exterior doors make one of the largest impacts on your home's exterior and interior design. So why settle for boring and uninspiring when you can have beautiful, customized entryways – statement doors created just for you.

Ready to be inspired? Browse this book for details about what makes an Advisar door superior and then peruse our product options. Visit our website for even more inspiration.

Your Advisar contractor will place your order and install your door, in a fraction of the time of traditional suppliers.

Easy. Fast. Simple.

Because whatever your style, *complicated* isn't part of it.

ADVISAR™

ADVISAR™

The Advisar Door System

GET TO KNOW **YOUR DOOR**

Beauty That's More Than Skin Deep

Every Advisar door is constructed from heavy-duty fiberglass. It comes pre-hung in a high-performance composite frame that resists damage from weather and rot. Our engineered sills block out air and water to keep the outdoors outside. Our seamless, plug-free glass frames mean no unsightly fasteners or screw holes. Our name-brand hardware and locksets are installed at the factory and feature a stronger security plate than others. And our factory-finished paints and stains are baked in to ensure a smooth, consistent finish every time. These are just some of the important details that separate our doors from the other guys'.

We don't settle for standard. When you rely on us, you can rest assured knowing that you'll receive the highest quality doors complete with precision finishes, top-of-the-line hardware, and essential security features.

Discover the Advisar difference today.

Door Style: Cheyenne ½ Lite
Color: Rustic Cypress
Glass: Chord

The Advisar Door System

DETAILS MAKE THE DIFFERENCE

Not all doors are created equal. Some manufacturers substitute lower quality components to save a few bucks. But at Advisar, we don't accept mediocre. We assessed all available product options and selected the absolute best for your door system.

Door Style: Full Lite
Color: Snow
Glass: Clear Glass and Mini-Blinds

HIGH-PERFORMANCE DOOR SYSTEM

Engineered, weather-resistant construction

We deliver complete door systems. Every door is pre-hung in a high-performance composite frame that, unlike wood, resists damage from rot and weather. Plus, our engineered sills block out air and water. Believe it or not, many others don't. As a result, you get a door with greater strength and that requires less maintenance than traditional wood.

PERFECTION DOWN TO THE SMALLEST FEATURE

Coordinated weather stripping colors that match, not clash

We put care and attention into every part of your door, ensuring that you're getting a masterfully designed entryway. For example, we let you pick your weather stripping color. Others might pick white as the standard, but with a black door, that just won't cut it.

SQUARE EDGE VS. PROUD EDGE

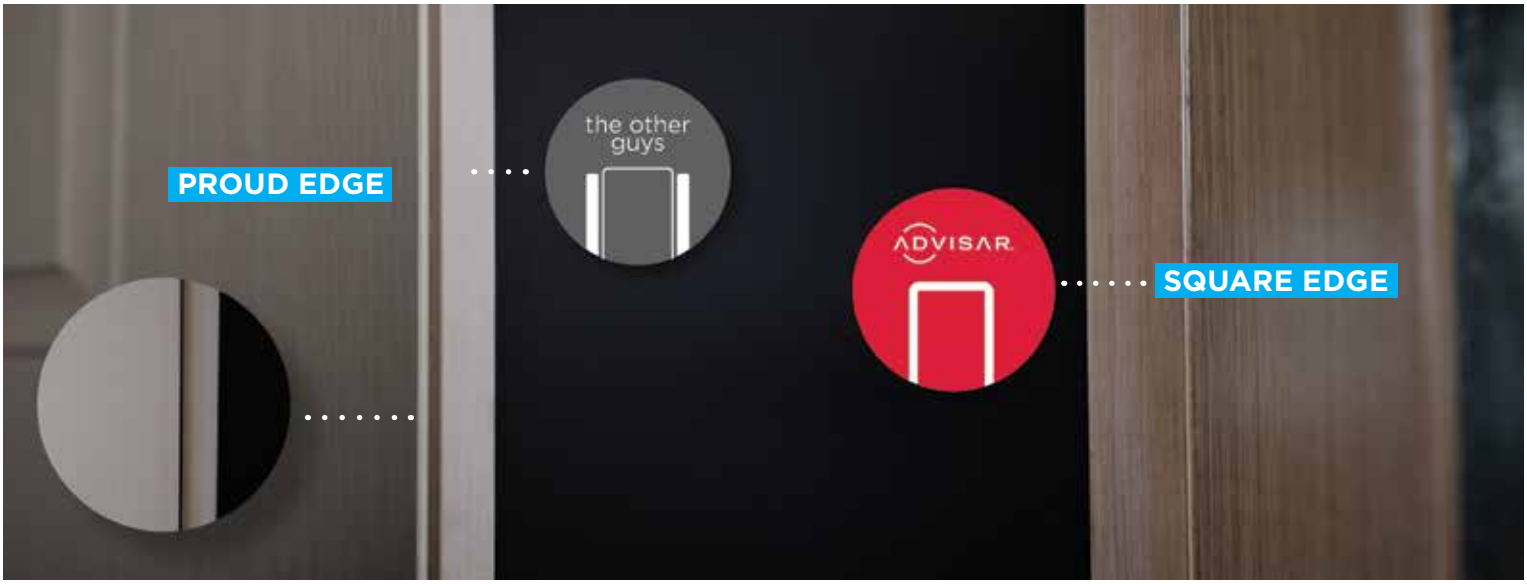
Crafted to truly evoke the look of real wood

A proud edge protrusion is a beveled edge, and it's a dead giveaway that a door is not real wood. Advisar doors are all manufactured with smooth, square edges that evoke the look of real, solid wood.

SECURITY COMES STANDARD

Upgraded security at no extra charge

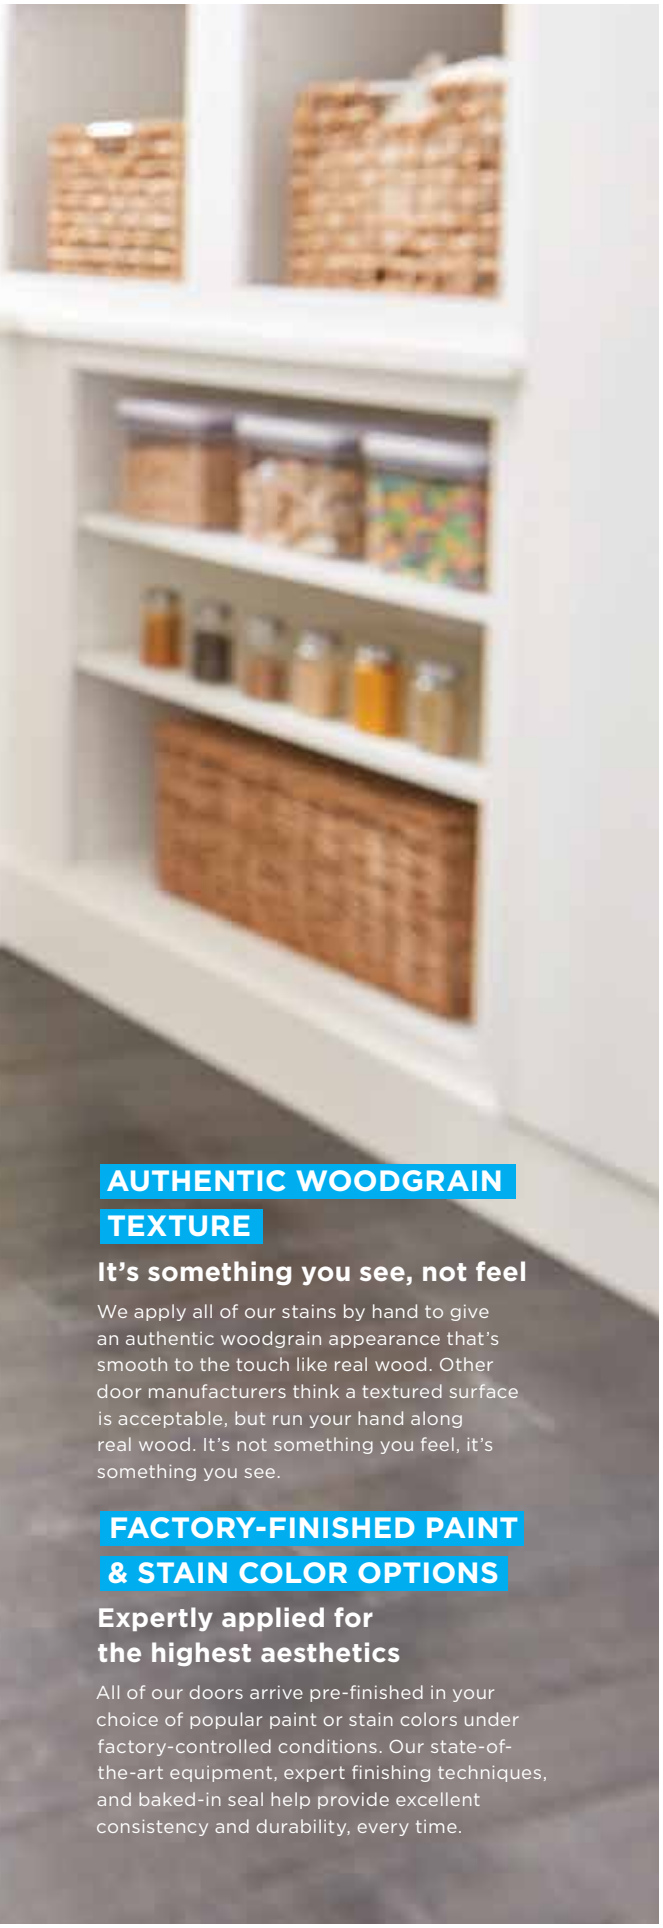
Our doors feature a strong security plate that comes standard. Other door manufacturers sell this for an extra cost.



Advisar Paints & Stains

UNMATCHED CONSISTENCY AND PRECISION

Make an impact the moment someone steps up to your entryway with exceptional aesthetic details that you simply won't find on stock doors. Our factory finishing techniques ensure a smooth, consistent look — every door, every time. Painting doors on the jobsite can lead to errors or damage. We avoid these issues by taking care of the finishing process so your contractor can focus on installing your new door.



AUTHENTIC WOODGRAIN TEXTURE

It's something you see, not feel

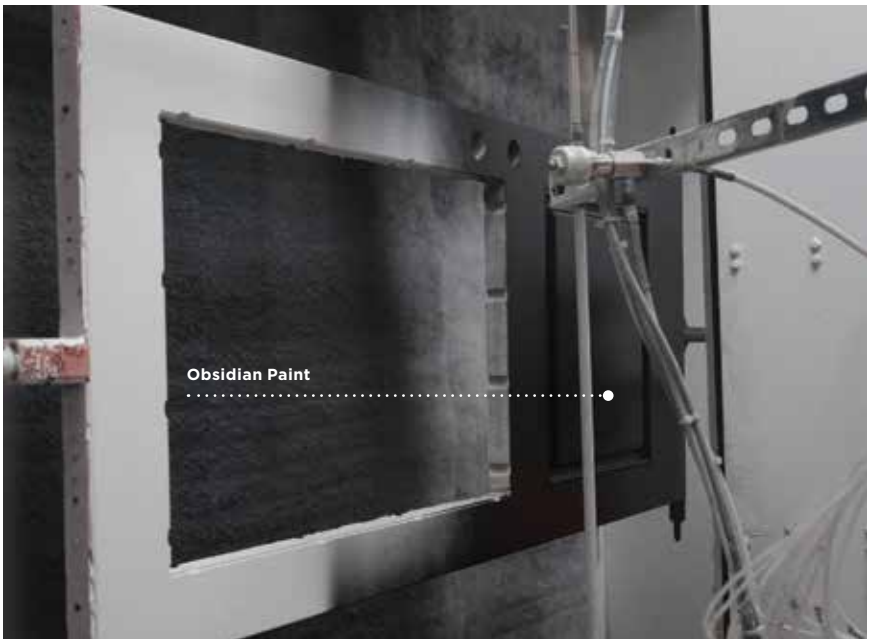
We apply all of our stains by hand to give an authentic woodgrain appearance that's smooth to the touch like real wood. Other door manufacturers think a textured surface is acceptable, but run your hand along real wood. It's not something you feel, it's something you see.

FACTORY-FINISHED PAINT & STAIN COLOR OPTIONS

Expertly applied for the highest aesthetics

All of our doors arrive pre-finished in your choice of popular paint or stain colors under factory-controlled conditions. Our state-of-the-art equipment, expert finishing techniques, and baked-in seal help provide excellent consistency and durability, every time.

Ask your Advisar contractor about our paint and stain color book. This will help you better envision your beautiful new door system.



We've eliminated unsightly plugs!

Advisar Glass & Hardware

GET STANDOUT STYLE WITH HIGH QUALITY OPTIONS

All of our doors are customizable and come with premium options like exclusive glass designs and name brand hardware. Unlike the other guys, we don't take shortcuts. We focus on the important details so you're left with a high-quality, stunning door that you can be proud of.

high performance
LOW-E
COATED GLASS

ENERGY EFFICIENT GLASS

Premium designs packed with performance

Make a statement with one of our stunning decorative glass designs, which are available in low-e. That has a direct benefit on your home's energy efficiency by reducing heat flow and air leakage.

Silhouette™ SEAMLESS GLASS FRAME

SEAMLESS GLASS FRAME

Smooth, plug-free design

Our Silhouette™ seamless glass frame adds an extra touch of elegance with its plug-free design that secures the glass internally. Say goodbye to unsightly fasteners or screw holes and hello to uninterrupted beauty. The exclusive frame design artfully conceals the fastening system for a seamless architectural appearance.

FINISHED TO MATCH HARDWARE

The look that's just right

Your selected hardware and locksets are beautifully finished to match and preinstalled for superior ease, quality, and appearance. Hardware is sourced from leading brands and includes electronic lockset and three-point security locking hardware options.

HIGHLY ENGINEERED PROTECTIVE PACKAGING

Doors delivered damage-free

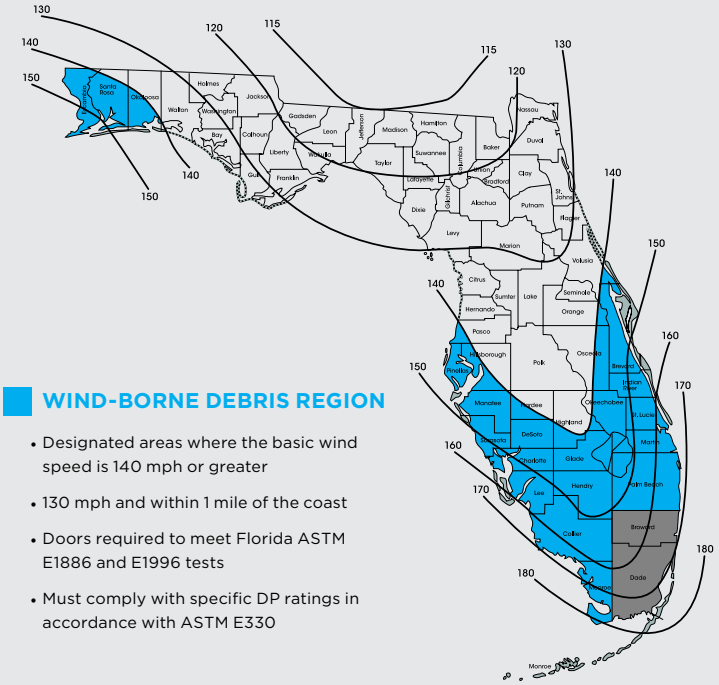
With traditional door packaging, it's not uncommon for products to arrive damaged. That's unacceptable. So we invested in a new kind of packaging—highly engineered from top to bottom to protect our door systems from damage and you from frustration and delays.

For Your Protection

IMPACT-RATED DOORS AND GLASS

Advisar systems are available with impact-rated doors and glass that meet high-wind and coastal region codes.* Protect your entryway from extreme weather by telling your contractor to include this upgrade.

Hurricane Prone Regions



WIND-BORNE DEBRIS REGION

- Designated areas where the basic wind speed is 140 mph or greater
- 130 mph and within 1 mile of the coast
- Doors required to meet Florida ASTM E1886 and E1996 tests
- Must comply with specific DP ratings in accordance with ASTM E330

* All impact glass has been tested for structural integrity and meets the requirements of Wind Borne Debris testing.

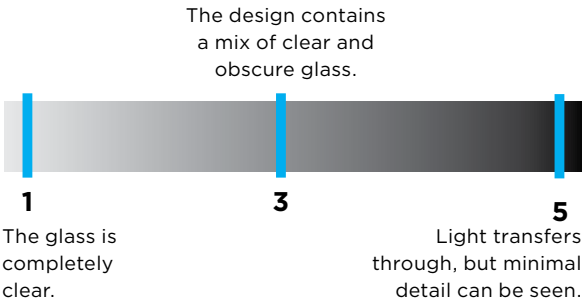
Hello Options!

YOUR GUIDE TO GLASS

GLASS OPACITY (AND WHY IT MATTERS)

When it comes to doors and privacy, the glass you use matters.

Some glass styles are easy to see through, and some are harder to do so from a distance. We offer a variety of options that let you determine how much privacy you want, or don't want. Glass is available in a privacy rating from 1-5.



LIP LITE VS. FLUSH GLAZED

Designs to suit your style

Looking for decorative glass that's traditionally framed? Or maybe a more clean-lined, modern look?

We have you covered with our lip lite and flush glazed glass options. With the lip lite bold frame and smooth finish of flush glazed, we have options to suit any style.

IMPACT-RATED DOORS & GLASS

In the following pages of this guide, these icons indicate the level of security for each door and glass type.

Advisar doors are built to withstand the harshest weather conditions. If you're in a hurricane-prone area, fully High Velocity Hurricane Zone (HVHZ) compliant options are available with impact-rated door panels, glass, and sills.

Not in a hurricane zone, but looking for added durability and security for your door? Some options can include impact-rated glass as an added safety feature.

Advisar Hardware

FINISHED TO MATCH HARDWARE

All of our doors come with the hardware and locksets pre-installed for superior consistency. Unlike the other guys, we don't take shortcuts. We focus on the important details so you're left with a high-quality, stunning door that you can be proud of.

HARDWARE FEATURES

SECURITY

Unlock added security with multi-point hardware

Three locks are better than one, right? Our multi-point locking system provides protection and peace of mind with the power of three full deadbolts and a solid lock design. In addition to added security, this hardware adds strength to your door panel by pulling it into perfect alignment. It also means a better fit to keep out air, water, insects, and other intruders.

SMART TECHNOLOGY

Keyless entry makes access easy

Say goodbye to keys with smart technology. There is no need to sacrifice convenience for security with our selection of smart hardware options. Smart hardware makes getting in the door as easy as having your smartphone on you, punching in an access code, or using an app to unlock your door.

MANAGE YOUR LOCKS FROM ANYWHERE

Home security in the palm of your hand

The hardware app turns your smartphone into a home security tool. It allows you to manage lock settings and access codes, set access schedules for certain people, and monitor activity.
